T.J. Duckett Reflects on July Camp In Lansing

I had a great time at Damian's camp this year. It's such a joy to see players that have done and been through so much still come back and help the youth. To see so many former guys I played with and against on the gridiron, join forces to give back to the community, not because they have to but because they want to, was a great feeling of purpose. The way those kids listened and were attentive to the knowledge was very

GRIDIRON GETS READY TO LAUNCH LEARNING CENTER

In a time where students are losing access to community programs and the proper education to keep them at their literacy levels, the Gridiron G.A.N.G. takes a leadership role to overcome the obstacle and give youth something to live for.

Damian Gregory, founder of the Gridiron Group, has an exquisite dream. It entails a society where all students have an equal opportunity to graduate high school, go to college, and dedicate themselves to something they are passionate about.

Children have great imaginations. They begin to develop passions quickly and gravitate towards a sport or a hobby and it completely consumes them. All humans are born creative. The problem is, we are sometimes educated out of our creativity.

It is Damian's dream that students from areas with low performing schools will have the opportunity to attend a learning center at no cost to them. The center will provide assessments for reading and math levels, learning disabilities, and a customized plan for the student based on the results of their assessment.

With your help Damian's dream will become a reality. Please call today to find out how you can make a difference. It could be as little as a post on Facebook about Gridiron!
